## 5、 Introduction :

### **Introduction**

This game is a 2D side-scrolling adventure titled Experimental Results. The story follows the protagonist, 101, and their companion, 102, who are captured and turned into test subjects in a mysterious laboratory. In order to rescue 102, 101 must explore various rooms, fighting against failed experimental subjects along the way, and ultimately find an escape route to flee the facility.

Throughout the game, players will need to investigate objects to uncover clues for escape and piece together the story. Players can also collect blood-replenishing items to prevent excessive blood loss during combat, helping them survive encounters with enemies.

### **Features**

- Puzzle-solving and combat gameplay
- Beautiful character and background artwork
- Collect items and tools to progress in the game
- Originality in game storytelling.
