五、Introduction:

我們的主題是「請別遺汪我」,遺「汪」取自諧音遺忘,意旨由狗狗的第一視 角來切入流浪狗議題。

製作這個主題的動機是因為在這個寵物盛行的世代,人們一時興起養了寵物又隨即拋棄牠,導致流浪狗的情況愈加嚴重,所以我們透過流浪狗議題和動物收容所安全問題的概念切入。

我們藉由手機呈現 VR 場景,介紹主題影片內主角的特性及讓使用者初步了解養寵物的知識,提高大家對流浪動物的領養意願。並製作了一部十五分鐘的影片,闡述流浪狗和收容所的議題。使用網頁平台,讓民眾有一個空間可以討論或是發現不良的收容所。

The title of this project is "Please don't abandoned me." The Chinese word "注" is taken from the homophonic forgetting, and the intention is to cut into the issue of stray dogs from the dog's perspective.

The motivation of this project is that raising pets are popular. People raise pets on a whim and then abandon them, which makes the situation of stray dogs more and more serious. We use the issues of the stray dog and animal shelter safety to make people that care of them.

The project presents VR scenes on mobile phones to introduce the characteristics of the protagonists in the theme videos. Let users have a preliminary understanding of pet ownership, so as to improve everyone's willingness to adopt stray animals. And produced a fifteen-minute film on the issue of stray dogs and shelters. The project also use a web platform to give people a space to discuss or discover bad shelters.
